Reading and Math!!!

Our staff takes several training classes to assist in classroom management, behavior and teaching children at each age level. Ideas such as teaching math while nibbling on snacks by adding and taking away or counting common toys and everyday items help to encourage math skills. Also, using rhythm and clapping assists in math. Likewise using visual items such as books, street signs and letter magnets to form words can help in the progression of a child's reading skills. All children learn differently and using various tools at home can aid in a child's learning every day.

Hopewell School begins soon. We will look for updates and information on how the new year will look. We are looking forward to beginning our new school year with our Preschool students along with our School Age group.

We will return to our Preschool Discover curriculum August 29, 2022. Please communicate any ideas or suggestions that can be added to our curriculum!

Additional fees:

Fall is a transition period for our daycare along with many families. If a change is being made with attendance or schedules we ask you give us a 2-week notice. Requests forms are at the scheduling desk. Please feel free to call, Email or schedule a meeting to discuss any changes or questions.

Please keep in mind that the daycare will supply a lunch, blankets, diapers or wet wipes if a child is in need. We do understand that families are very busy. Our purpose is not to nickel and dime families but to set policies and be fair to each and all families attending. A service fee of \$5.00 for each/any items used will be added to your child's account. Please use the **Brightwheel** App and our **weekly Email** to stay informed. Thank you in advance for your understanding and cooperation.
